Encouragement For End Times

“How Should We Be Behaving?”

I Thessalonians 1:5-10

*As a believer, is it important that we have good behavior?
Why?*

What is meant by “lead by example”? Does this rule out any verbal instructions?

Does living a model or good example with your behavior help or hinder your verbal conversations?

What are the advantages from having a good example to follow?

As a believer, do you think you are responsible for what people say about your behavior?

We are all influencers. How does your life influence those around you for good? For bad?

How conscious are you throughout your day about where those who live around you will spend eternity? Your family? Fellow employees?

How do you share the gospel witness other than trying to be the example?

What has been the greatest change in your life since you became a Christian?

The word “occupy” means more than just taking up space. As we occupy we need to do more than make sure we do not lose ground. What else should we be doing in light of our Lord’s return.

What truth that you learned in this lesson means the most to you?
